

Position: Graphic Designer

Reports To: President

About Us: REV Robotics is one of the fastest growing companies in educational robotics. Our people, and their passion for STEM education (FIRST Robotics, in particular) set us apart. We have a relaxed and friendly office located in Carrollton, TX, just outside of Dallas, and are always looking for people who are willing to stretch their abilities to make STEM education materials more accessible and impactful to everyone.

Job Summary: REV Robotics is seeking a graphic designer who is interested in and willing to work across multiple disciplines, including web and print advertising materials, physical product branding, packaging, social media, etc. The ideal candidate will draw from a variety of skill sets in order to showcase and market REV Robotics and REV's products in the best way possible. Someone who is successful in this position could have significant control and input into the creative direction and style of the company. REV is committed to providing quality, low-cost educational robotics parts for STEM Education, and the Graphic Designer should utilize their skills as necessary in order to support that mission.

Primary Responsibilities:

- Creates content for and maintains the look of revrobotics.com
- Works with product engineers to summarize product information into a variety of formats, appropriate for robotics teams, distributors, schools, etc.
- Creates designs for all aspects of REV business, including product promotion and general company publicity
- May represent REV at FIRST and other off-season events
- Other responsibilities as needed to ensure that the goals of REV are met

Requirements:

- Experience working on or with a FIRST Robotics team preferred
- Skilled in latest version of Adobe Creative Suite
- Comfortable with multimedia design, including design for web, print, product branding, social media, etc.
- Experience with copywriting and creating product marketing literature, such as catalogs, brochures, etc.
- Must have the ability to follow directions, and work independently with minimal supervision
- Work with a flexible schedule and demonstrate effective time management
- Experience with video creation and editing a plus

How to Apply

- Email Jobs@REVrobotics.com by February 10th, 2017
 - Subject line "Graphic Designer"
 - Include a Resume and Cover letter
 - Links to other relevant supporting materials preferred (portfolio, previous work, etc)
 - Also include start date availability and any salary requirements
